EDUCATION

Lakireddy BaliReddy College of Engineering	BTech- CSE CGPA:9.3	2024 – 2028
Narayana Junior College	Intermediate-MPC : 95.6%	2022 – 2024
Subhodaya English Medium High School	SSC : 93%	2010 – 2022

SUMMARY

Computer Science and Engineering student with a 9.3 CGPA and a strong interest in Artificial Intelligence, Generative AI, and Full-Stack Web Development. Skilled in Python, JavaScript, HTML, CSS, and FastAPI, with hands-on experience building web applications, real-time communication systems, and AI-powered solutions. Passionate about software engineering, problem solving, and developing scalable applications that solve real-world challenges.

PROJECTS

- AI Chatbot API** | **Python, FastAPI, Groq API**
 - Built an AI-powered chatbot backend using FastAPI and Groq LLM APIs to generate conversational responses.
 - Implemented JSON-based request and response handling between frontend and backend systems.
 - Developed REST API endpoints for processing user prompts and generating responses.
 - Managed API keys securely using environment variables and integrated LLM inference into a backend service.
- Resource Sharing & Lost-Found Hub** | **HTML5, CSS3, JavaScript**
 - Developed a multi-page web application prototype for resource sharing and lost-and-found management within a campus community.
 - Designed and implemented user authentication pages, resource browsing interfaces, item reporting workflows, and category-based navigation.
 - Built responsive and reusable UI components across multiple pages using HTML5 and CSS3.
- Amazon Clone Project** | **HTML, CSS, JavaScript**
 - Developed a responsive e-commerce website interface inspired by Amazon.
 - Implemented product listings, navigation components, and responsive page layouts.
 - Applied JavaScript for interactive user interface elements and dynamic behavior.
 - Strengthened frontend development skills through real-world UI replication and design practices.

TECHNICAL SKILLS

Languages	: Python, Java, JavaScript, C
Frontend	: HTML5, CSS3, JavaScript
Backend	: Fast API, REST APIs
Databases	: SQL
AI & Generative AI	: Prompt Engineering, Large Language Models (LLMs), Groq API
Tools & Platforms	: GitHub, VS Code, Vercel, Render
Core Concepts	: Object-Oriented Programming (OOP), Data Structures & Algorithms, API Integration, Client-Server Architecture, JSON
Operating Systems	: Windows, Ubuntu

TECHNICAL ACTIVITIES & PARTICIPATION

- **Smart India Hackathon (College Level)** – Smart attendance using IOT sensors *Participant / 2025*
 - Proposed idea about smart attendance using IOT Sensors
 - Presented problem statement, solution approach, and applications to jury panel.
- **Technical PPT Presentation** – The VerityAI- Detector of AI generated fake news
 - Prepared and delivered PPT on college technical event.
 - Explained design, working, and safety applications.
- **Technical PPT Presentation** – Vehicle Pollution Monitoring System
 - Presented air-sampling based pollution monitoring concept using gas sensors.

ACHIEVEMENTS

- Built and deployed an AI Chatbot API using FastAPI and Groq LLM APIs.
- **Selected Candidate– Smart India Hackathon (College Level):** Developed a technical solution for advanced sensor-based Attendance monitoring system
- **Ideathon Recognition – Lakshya 2K26:** Proposed a creative portable safety monitoring device for verity AI model.
- Built and deployed multiple web development projects including a Resource Sharing Hub and Amazon Clone using HTML, CSS, and JavaScript.

CERTIFICATIONS

- **Virtual Internship Program — ServiceNow University & SmartBridge (2026)**
- **Google Cloud Generative AI Learning Path — Google Cloud Skills Boost**
- **Python Essentials — Cisco Networking Academy**
- **SQL Certification — Scaler**
- **JavaScript Essentials — Cisco Networking Academy**
- **Programming in C — Cisco Networking Academy**
- **Web Development Fundamentals — IBM SkillsBuild**
